- Toxicity, digitalis, effect of metabolic alkalosis (Warren et al.), 358
- Transplantation, kidney, ethics for use of live donors in (McGeown), 711 (Annot.)
- Transplanted heart valve homograft persistence, cause of (Hirsch and Hanke), 568 (Annot.)
- Tricuspid insufficiency, problems in hemodynamic diagnosis of (Cairns et al.), 173
- valve, familial Ebstein's anomaly of (Donegan et al.), 375
- Two-step test, Master (Master), 809

## U

- Uganda, endomyocardial fibrosis (Davies' disease), II, epidemiologic, clinical, and pathologic study (Connor et al.), 107
- Ultrastructure of kidney, 720 (B. Rev.)

## V

- Valsalva, sinus of, congenital aneurysm, associated with ventricular septal defect (Sakakibara and Konno), 595
- Valve cusp, torn aortic, intermittent "cooing" diastolic murmur due to (Fletcher and Hurst), 537
  - disease, mitral, acquired, surgery for, 284 (B. Rev.)
  - homograft persistence, transplanted heart, cause of (Hirsch and Hanke), 568 (Annot.)
  - mitral, prolapse of posterior leaflet: chromosome studies in three sisters (Stannard and Rigo), 282 (Annot.)
  - replacement, mitral, cardiac function following (Hultgren, Hubis, and Shumway), 302
  - tricuspid, familial Ebstein's anomaly of (Donegan et al.), 375
- Valvular heart disease, surgical treatment of, I, criteria for operability in rheumatic heart disease (Reppert), 838
- Valvuloplasty, mitral, closed, effect of age and other factors on early and late results following (Ellis, Benson, and Harken), 743
  - preoperative systemic blood pressure on (Benson, Ellis, and Harken), 439
- Variation, beat to beat and observer, of electrocardiogram (Fischmann, Cosma, and Pipberger), 465
- Vascular diseases, cerebral, 851 (B. Rev.)
  - natural history of (Wallace), 285
  - hypertensive, diagnosis and treatment, 720 (B. Rev.)
- Vectorcardiogram of children, sponge electrodes for recording (Witham), 291
  - and electrocardiograms from research animals, significance of foreleg positions in interpretation of (Hill), 518
  - sponge, and electrocardiogram, prediction of right ventricular pressure in pulmonic stenosis (Witham, Rainey, and Edmonds), 186
- Vectorcardiographic criteria, new quantitative, for detection of unsuspected myocardial infarction in diabetics (Selvester et al.), 335
  - patterns of unusual conduction disturbance in infancy and childhood (Khoury and Fowler), 147
- Vectorcardiography, clinical, 577 (B. Rev.)
  - pacemaker (Castellanos et al.), 6
  - programmed: ST-T loop in horizontal plane (Castellanos, Lemberg, and Salhanick), 260
- Venous return with knee-chest position and squatting in tetralogy of Fallot (Guntheroth et al.), 313
  - strips, isolated canine, influence of bradykinin on (DePasquale and Burch), 630
- Ventricle, right, human, hypertrophied, and normal, activation of (Wallace et al.), 728
  - origin of both great vessels from, with intact ventricular septum (Davachi, Moller, and Edwards), 790
- Ventricular assistor, intrathoracic extracardiac pneumatic (Almond, Elefson, and Hoffer), 567 (Annot.)
  - fibrillation, cardiac necrosis, and acute hypotension, interrelations of (Barrera et al.), 421 (Annot.)
  - persistent, propranolol in, complicating acute myocardial infarction (Ikram), 795
  - hypertrophy, left, point-score system for ECG diagnosis of (Romhilt and Estes), 752

## Ventricular hypertrophy—Cont'd

- pattern, right, intermittent normalization of, in tetralogy of Fallot (Neuman, Yahini, and Neufeld), 97
- output, right, and mathematical model, electrical conductivity method for estimating (Maronde et al.), 66
- overloading, left, or damage with ultrasonic Doppler method, analysis of cardiac cycle of left side of heart in cases of (Nimura et al.), 49
- right, pressure, in pulmonic stenosis from sponge vectorcardiogram and electrocardiogram, prediction of (Witham, Rainey, and Edmonds), 186
- septal defect, anatomic types of, with aortic insufficiency (Van Praagh and McNamara), 604
  - congenital aneurysm of sinus of Valsalva associated with (Sakakibara and Konno), 595
- septum, intact, origin of both great vessels from right ventricle with (Davachi, Moller, and Edwards), 790
- volume, left, in man, use of single plane angiocardiograms for calculation of (Sandler and Dodge), 325
- wall, left, stress distribution within, approximated as thick ellipsoidal shell (Wong and Rautaharju), 649

Vessels, great, both, origin of, from right ventricle with intact ventricular septum (Davachi, Moller, and Edwards), 790

Viral nephritis (Burch and Sun), 1

pericarditis, acute, Coxsackie, constrictive pericarditis following (Howard and Maier), 247

Virus, Coxsackie, infections and heart disease (Brown), 145

Volume, extracellular, in patients with chronic renal disease treated for hypertension by sodium restriction (Blumberg), 717 (Annot.)

and pressure, increased, on endocardial structure in hearts with atrial septal defect, different effects of (Okada, Glagov, and Lev), 474

## W

Wolff-Parkinson-White syndrome (Okel), 673

## Z

Zinc, magnesium, and calcium composition, regional differences in, of arterial wall in normal and hypertensive dogs (Fischer, Mata, and Llaurado), 784

- Necrosis, cardiac, in turtle, induced by isoproterenol (Ošťádal, Rychterová, and Poupa), 645
- Negative pressure, lower body, hypovolemia and vasodepressor syncope induced by (Murray et al.), 799
- Nephritis, acute and chronic, and infections of the kidney, mortality trends for (Florey and Kessner), 848 (Annot.)
- Nitroglycerin and iproveratril, effects of, in heart and coronary circulation of dogs (Ross and Jorgensen), 74
- Nodal escape rhythm and reflex bradycardia in pheochromocytoma (Forde, Yormak, and Killip), 388
- Norepinephrine, free, and free epinephrine in patients with acute myocardial infarction, urinary excretion of (Januszewicz et al.), 345
- and heparin-induced changes in plasma free fatty acids: comparison between patients with ischemic heart disease and normal young adults (Rutenberg, Schwartz, and Soloff), 183
- and phenylephrine, effects of, on myocardial energetics (Krasnow), 660

## O

- Open heart surgery, cardiac tamponade as late complication of (Prewitt et al.), 139 (Annot.)
- Orthogonal leads, variability of electrocardiographic data recorded with (Borun), 62
- Osteoarthropathy, idiopathic hypertrophic, Touraine-Solente-Gole syndrome (Susmano, Shah, and Tashima), 582 (Annot.)
- Ouabain, hemodynamic effects of, upon diseased left ventricle (Yankopoulos et al.), 466
- Output, cardiac, during four minutes of exercise (Jones and Reeves), 209
  - during last six weeks of pregnancy, effect of posture on (Mulholland and Boyle), 291 (Annot.)

## P

- Pacemaker(s) arrhythmias, atrial synchronized (Castellanos et al.), 199

- Pacemaker(s)—Cont'd  
chronically implanted, hemodynamic studies in patients with (Adolph, Holmes, and Fukusumi), 829
- Pacing, rapid, intracardiac, for treatment of recurrent ventricular tachyarrhythmias in absence of heart block (DeSanctis and Kastor), 168
- ventricular synchronous and demand (Furman and Escher), 445
- Paralysis, hyperkalemic intermittent, associated with spironolactone in patients with cardiac cirrhosis (Radó et al.), 393
- Pectoris, angina, transient systolic murmurs in (Holmes, Logan, and Winterbottom), 680
- Pericardial disease and interatrial septal defect (Just and Mattingly), 157
- Pericarditis, constrictive, and constrictive endocarditis, unusual diastolic murmurs in (Schrire, Gotsman, and Beck), 4
- Peritoneal dialysis, clinical and hemodynamic results of, for severe cardiac failure (Cairns et al.), 227
- Phenylephrine, amyl nitrite, and prompt squatting, influence of, on systolic murmur in hypertrophic obstructive cardiomyopathy (Nellen, Gotsman, and Schrire), 295 (Annot.)
- and norepinephrine, effects of, on myocardial energetics (Krasnow), 660
- Pheochromocytoma, beta-adrenergic receptor blockade in diagnosis of (Paton), 141 (Annot.)
- reflex bradycardia and nodal escape rhythm in (Forde, Yormak, and Killip), 388
- Physical characteristics and exercise performance of pedicab and upper socioeconomic classes of middle-aged Chinese men, comparative study of risk factors for coronary heart disease (Chiang et al.), 760
- Plasma free fatty acids, changes in, induced by norepinephrine and heparin: comparison between patients with ischemic heart disease and normal young adults (Rutenberg, Schwartz, and Soloff), 183
- Platelets, effect of clofibrate on (Mustard), 436 (Annot.)
- Poisoning, Argemone mexicana, cardiac involvement in epidemic dropsy (Balani et al.), 711 (Annot.)
- Posture, effect of, on cardiac output during last six weeks of pregnancy (Mulholland and Boyle), 291 (Annot.)
- Potassium, rubidium, and cesium, differences in relationships between coronary blood flow, and myocardial clearance of isotopes of (Love et al.), 353
- Pregnancy, effect of posture on cardiac output during last six weeks of (Mulholland and Boyle), 291 (Annot.)
- Pressure, blood, and ageing (Miall and Lovell), 290 (Annot.)
- lower body negative, hypovolemia and vasodepressor syncope induced by (Murray et al.), 799
- wedge, elevated capillary, and severe pulmonary arterial hypertension, associated with surgical closure of ventricular septal defect, followed by decrease in pulmonary vascular resistance (Leachman and Pereyo), 816
- Propranolol, beta-adrenergic antagonist, effect of, on rabbit atrial cells with ultramicroelectrode technique (Pitt and Cox), 242
- dextro isomer of, effect on sinus rate and cardiac arrhythmias (Howitt et al.), 736
- Prosthetic cardiac valves, VII, surgical treatment of valvular heart disease (Spencer), 839
- replacement of mitral valve, V, surgical treatment of valvular heart disease (Spencer), 576
- Pulmonary arterial stenosis, evolution of, associated with congenital rubella (Wasserman, Varghese, and Rowe), 638
- artery in adult, surgical ligation of anomalous left coronary artery arising from (Summer and Hendrix), 812
- embolism, massive, humoral factors in (Gurewicz, Cohen, and Thomas), 784
- and systemic hemodynamic effects of cardiac glycosides (Linde et al.), 356
- thromboembolism, urokinase therapy in (Genton and Wolf), 628
- valve fusion with intact ventricular septum (Celermajer et al.), 452
- vascular disease with ventricular septal defect, long-term results of closure of (Hallidie-Smith), 591
- resistance, decrease in, following surgical closure of ventricular septal defect associated with elevated capillary wedge pressure and severe pulmonary arterial hypertension (Leachman and Pereyo), 816
- Pulmonic stenosis caused by malignant tumor of heart; case report (van Bruggen and de Koning), 526
- significant valvular, normal splitting of second heart sound in (Stern and Delman), 13
- Pulse, arterial, and blood pressure in 203 patients, effects of brachial artery catheterization on (Jeresaty and Liss), 481

## Q

- Q-deflection, disappearance of, following myocardial infarction (Kalbfleisch et al.), 193
- Quinidine toxicity, effect of digitalization on (Brandfonbrener, Kjobech, and Cooper), 249

## R

- Rabbit atrial cells, effect of beta-adrenergic antagonist propranolol on, with ultramicroelectrode technique (Pitt and Cox), 242
- Receptor blockade, beta-adrenergic, in diagnosis of pheochromocytoma (Paton), 141 (Annot.)
- Refractory heart failure, use of furosemide in (Davidov, Kakaviatos, and Finnerty), 143 (Annot.)
- Renal function in hypertensive patients, effects of alpha-methyl dopa on (Mohammed et al.), 21
- Renovascular hypertension, true, value of angiotensin infusion test in diagnosis of (Genest), 443
- Resistance, pulmonary vascular, decrease in, following surgical closure of ventricular septal defect associated with elevated capillary wedge pressure and severe pulmonary arterial hypertension (Leachman and Pereyo), 816
- Resistivity variations, thoracic, qualitative effects of, on interpretation of electrocardiograms: low resistance surface layer (McFee and Rush), 49
- Rheumatic heart disease, criteria for operability, II, surgical treatment of valvular heart disease (Reppert), 136
- Right bundle branch block, T loop in, vectorcardiographic study of 82 cases (Rubler et al.), 217
- ventricular hypertrophy, electrocardiogram in (Boineau et al.), 605

- Rubella, congenital, evolution of pulmonary arterial stenosis associated with (Wasserman, Varghese, and Rowe), 638
- Rubidium, potassium, and cesium, differences in relationships between coronary blood flow and myocardial clearance of isotopes of (Love et al.), 353
- S
- Second heart sound (DePasquale, Burch, and Phillips), 419  
normal splitting of, in significant valvular pulmonic stenosis (Stern and Delman), 13
- Septal defect interatrial, and pericardial disease (Just and Mattingly), 157  
ventricular, and hypoplastic right ventricle (Chesler et al.), 259  
with elevated capillary wedge pressure and severe pulmonary hypertension, decrease in pulmonary vascular resistance following surgical closure of (Leachman and Pereyo), 816  
with pulmonary vascular disease, long-term results of closure of (Hallidie-Smith), 591
- Septum, intact ventricular, pulmonary valve fusion with (Celermajer et al.), 452
- Serum lipids and cerebrovascular disease (Cumings and Marshall), 584 (Annot.)
- Sinus rate and cardiac arrhythmias, effect of dextro isomer of propranolol on (Howitt et al.), 736
- Skin-electrode impedance problems in electrocardiography (Berson and Pipberger), 514
- Sound(s), heart, second (DePasquale, Burch, and Phillips), 419  
normal splitting of, in significant valvular pulmonic stenosis (Stern and Delman), 13  
third and atrial, in ischemic heart disease, amyl nitrite inhalation test in assessment of (Sawayama et al.), 746
- Spironolactone associated with hyperkalemic intermittent paralysis in patient with cardiac cirrhosis (Radó et al.), 393  
effect of, on digital vascular reactivity in essential hypertension (Mendlowitz et al.), 795
- Splitting, normal, of second heart sound in significant valvular pulmonic stenosis (Stern and Delman), 13
- Squatting, prompt, amyl nitrite, and phenylephrine, influence of, on systolic murmur in hypertrophic obstructive cardiomyopathy (Nellen, Gotsman, and Schrire), 295 (Annot.)
- Staining, dehydrogenase, used to detect ischemic zone surrounding acute myocardial infarction (Cox et al.), 650
- Stenosis, aortic, failure in, from diastolic movements of left ventricle (Fleming), 235  
coronary artery, and ventricular aneurysm: diastolic murmurs due to two sequelae of atherosclerotic coronary artery disease (Fearon et al.), 252  
pulmonary arterial, evolution of, associated with congenital rubella (Wasserman, Varghese, and Rowe), 638  
pulmonic, caused by malignant tumor of heart; case report (van Bruggen and de Koning), 526  
significant valvular, normal splitting of second heart sound in (Stern and Delman), 13
- Stenotic mitral valve, surgical repair of, III, surgical treatment of valvular heart disease (Robinson, Furman, and Attai), 286
- Surface layer, low resistance: qualitative effects of thoracic resistivity variations on interpretation of electrocardiograms (McFee and Rush), 49
- Surgery, open heart, cardiac tamponade as late complication of (Prewitt et al.), 139 (Annot.)
- Surgical closure of ventricular septal defect associated with elevated capillary wedge pressure and severe pulmonary arterial hypertension, decrease in pulmonary vascular resistance following (Leachman and Pereyo), 816  
ligation of anomalous left coronary artery arising from pulmonary artery in adult (Sumner and Hendrix), 812  
treatment of valvular heart disease, II, criteria for operability in rheumatic heart disease (Reppert), 136  
III, surgical repair of stenotic mitral valve (Robinson, Furman, and Attai), 286  
IV, mitral valve surgery, closed valvuloplasty and repair (Reed), 432  
V, prosthetic replacement of mitral valve (Spencer), 576  
VI, aortic valve surgery (Robinson, Furman, and Attai), 706  
VII, prosthetic cardiac valves (Spencer), 839
- Synchronized atrial pacemaker arrhythmias (Castellanos et al.), 199
- Synchronous and demand pacing, ventricular (Furman and Escher), 445
- Syncope, vasodepressor, and hypovolemia, hemodynamic effects of, induced by lower body negative pressure (Murray et al.), 799
- Systemic and pulmonary hemodynamic effects of cardiac glycosides (Linde et al.), 356
- Systolic murmurs in hypertrophic obstructive cardiomyopathy, influence of amyl nitrite, phenylephrine, and prompt squatting on (Nellen, Gotsman, and Schrire), 295 (Annot.)  
transient, in angina pectoris (Holmes, Logan, and Winterbottom), 680
- T
- T loop in right bundle branch block, vectorcardiographic study of 82 cases (Rubler et al.), 217
- Tachyarrhythmias, ventricular, recurrent, in absence of heart block, treatment by rapid intracardiac pacing (DeSanctis and Kastor), 168
- Tachycardia, digitalis-induced ventricular, antiarrhythmic drugs in treatment of (Hilmi and Regan), 365
- Tamponade, cardiac, following external cardiac massage (Bahler, Carson, and White), 850 (Annot.)  
as late complication of open heart surgery (Prewitt et al.), 139 (Annot.)
- Test, amyl nitrite inhalation, in assessment of third and atrial heart sounds in ischemic heart disease (Sawayama et al.), 746
- Tetralogy of Fallot, malformations of aortic valve in patients with (Glancy, Morrow, and Roberts), 755
- Thermal stress (hot dry environment), cardiovascular response to, in unacclimatized normal subjects (Damato et al.), 769
- Thioguanosine, treatment of idiopathic myocardial hypertrophy with (Rosen, Schoonmaker, and Laszlo), 35
- Thioridazine (Mellaril), electrocardiographic abnormalities induced by (Burda), 153

- Third and atrial heart sounds in ischemic heart disease, amyl nitrite inhalation test in assessment of (Sawayama et al.), 746
- Thoracic resistivity variations, qualitative effects of, on interpretation of electrocardiograms: low resistance surface layer (McFee and Rush), 49
- Thromboembolism, pulmonary, urokinase therapy in (Genton and Wolf), 628
- Thrombogenesis, antiatherosclerotics, and atherogenesis, microcirculatory aspects of (Shimamoto), 105
- Thromboplastic and fibrinolytic activity of normal human heart valves (Glas and Astrup), 504
- Touraine-Solente-Gole syndrome, idiopathic hypertrophic osteoarthropathy (Susmano, Shah, and Tashima), 582 (Annot.)
- Toxicity, quinidine, effect of digitalization on (Brandfonbrener, Kjobech, and Cooper), 249
- Toxoplasma gondii, cardiomyopathies produced by (Arribada and Escobar), 329
- Tumor, malignant, of heart, pulmonic stenosis caused by; case report (van Bruggen and de Koning), 526
- Turtle, acute experimental cardiac necrosis in, induced by isoproterenol (Ošfadal, Rychterová, and Poupa), 645
- ### U
- Ultramicroelectrode technique, effect of beta-adrenergic antagonist propranolol on rabbit atrial cells with (Pitt and Cox), 242
- Urinary excretion of free norepinephrine and free epinephrine in patients with acute myocardial infarction (Januszewicz et al.), 345
- Urokinase therapy in pulmonary thromboembolism (Genton and Wolf), 628
- ### V
- Valve(s), aortic, malformations of, in patients with tetralogy of Fallot (Glancy, Morrow, and Roberts), 755
- cardiac, incomplete differentiation of; report of 197 cases (Hyams and Manion), 173
- fusion, pulmonary, with intact ventricular septum (Celermajer et al.), 452
- mitral, Marfan's syndrome confined to region of: two cases in siblings (Crocker), 538
- normal human heart, fibrinolytic and thromboplastic activity of (Glas and Astrup), 504
- Valvular heart disease, surgical treatment of, II, criteria for operability in rheumatic heart disease (Reppert), 136
- III, surgical repair of stenotic mitral valve (Robinson, Furman, and Attai), 286
- IV, mitral valve surgery, closed valvuloplasty and repair (Reed), 432
- V, prosthetic replacement of mitral valve (Spencer), 576
- VI, aortic valve surgery (Robinson, Furman, and Attai), 706
- VII, prosthetic cardiac valves (Spencer), 839
- pulmonic stenosis, significant, normal splitting of second heart sound in (Stern and Delman), 13
- Valvuloplasty, closed, and repair, IV, surgical treatment of valvular heart disease (Reed), 432
- Vasa vasorum of heart (Johnson and Blake), 79
- Vascular disease, pulmonary, with ventricular septal defect, long-term results of closure of (Hallidie-Smith), 591
- reactivity, digital, in essential hypertension, effect of spirinolactone on (Mendlowitz et al.), 795
- resistance, pulmonary, decrease in, following surgical closure of ventricular septal defect associated with elevated capillary wedge pressure and severe pulmonary arterial hypertension (Leachman and Pereyo), 816
- Vasodepressor syncope and hypovolemia, hemodynamic effects of, induced by lower body negative pressure (Murray et al.), 799
- Vasorum, vasa, of heart (Johnson and Blake), 79
- Vectorcardiographic aspects of primary myocardial disease in 50 patients (Hamby and Raia), 304
- Ventricle, diseased left, hemodynamic effects of ouabain upon (Yankopoulos et al.), 466
- hypoplastic right, and ventricular septal defect (Chesler et al.), 259
- left, diastolic movements of, failure in aortic stenosis from (Fleming), 235
- isovolumetric contraction period of (Spodick and Kumar), 498
- Ventricular aneurysm and coronary artery stenosis: diastolic murmurs due to two sequelae of atherosclerotic coronary artery disease (Fearon et al.), 252
- hypertrophy, left, electrocardiographic evaluation of, in 364 unselected autopsy cases (Liu and DeCristofaro), 596
- right, electrocardiogram in; relationship between ventricular depolarization and body surface potentials in dogs with spontaneous RVH contrasted with normal dogs (Boineau et al.), 605
- left, ejection period (Spodick and Kumar), 70
- rates, controlled, study of hemodynamic effects of beta-adrenergic blockade at (Whalen et al.), 775
- septal defect and hypoplastic right ventricle (Chesler et al.), 259
- with elevated capillary wedge pressure and severe pulmonary hypertension, decrease in pulmonary vascular resistance following surgical closure of (Leachman and Pereyo), 816
- with pulmonary vascular disease, long-term results of closure of (Hallidie-Smith), 591
- septum, intact, pulmonary fusion with (Celermajer et al.), 452
- synchronous and demand pacing (Furman and Escher), 445
- tachyarrhythmias, recurrent, in absence of heart block, treatment by rapid intracardiac pacing (DeSanctis and Kastor), 168
- tachycardia, digitalis-induced, antiarrhythmic drugs in treatment of (Hilmi and Regan), 365
- ### W
- "Wedensky facilitation" in human heart (Fisch and Knoebel), 90
- Wedge pressure, elevated capillary, and severe pulmonary arterial hypertension, associated with surgical closure of ventricular septal defect, followed by decrease in pulmonary vascular resistance (Leachman and Pereyo), 816
